Family Planning Digest

Subject Index, Volume 1, 1972

Abortion

Dilatation May Add to Miscarriage Risk, No. 6, p. 6.

Health, Social Impact of Legalized Abortion, No. 4, p. 13.

Birth Control Methods:

see **Abortion; Contraception: General, Injectables, Intrauterine Devices, Oral Contraceptives, Postcoital, Rhythm, Sterilization;** also **Research: Biomedical**

Blacks

Do Blacks Have Less Access to Private MD?, No. 2, p. 9.

Communications

How to Tell People about Family Planning, No. 1, p. 6.

Family Planning Professionals' Guide, No. 4, p. 15.

Resources in Review, No. 6, p. 7.

Condoms

Pharmacists Inactive as Family Planning Leaders, No. 4, p. 1.

Washington State OKs Slot Machine Sales, No. 3, p. 13.

Young Men Will Use Contraception, No. 1, p. 1.

Conferences

American Association of Planned Parenthood Physicians Roundup - 1972, No. 4, p. 6.

American College of Obstetricians and Gynecologists - 1972, No. 5, p. 1.

American College Health Association - 1972, No. 4, p. 12.

American Fertility Society, No. 5, p. 9.

American Public Health Association Roundup - 1971, No. 2, p. 6.

Research Conference on Natural Family Planning, No. 3, p. 1.

Contraception: General

Decline Due to Better Method Use, No. 6, p. 9.

1971 Sanger Award to Dr. Louis M. Hellman, No. 2, p. 15.

U.S., Chilean Men Say 'Family Planning Yes', Want More Contraceptive Education Services, No. 5, p. 8.

Economics

About $98,000 Needed to Take First Child from Birth to B.A., No. 5, p. 5.

Couples Best Off Who Best Plan Number and Spacing of Children, No. 3, p. 3.

$66 a Patient Annual Family Planning Cost, No. 5, p. 7.

Education

Education Key to Less Teenage Pregnancy, No. 2, p. 7.

Family Planning Professionals' Guides, No. 4, p. 15.

How to Tell People about Family Planning, No. 1, p. 6.

Number of Births Responsive to Social, Economic Change, No. 3, p. 11.

Evaluation of Program

Do Blacks Have Less Access to Private MD?, No. 2, p. 9.

Four Programs Singled Out for Excellence in Medical Care, Training, Education, Outreach, No. 5, p. 3.

The Pill: Clinics Teach Less than Patients Learn, No. 2, p. 13.

Postpartum Program Approach: Pluses and Minuses, No. 2, p. 5.

Side Effects and Problems in Clinics Found Major Reasons for Dropouts, No. 3, p. 12.

$66 a Patient Annual Family Planning Cost, No. 5, p. 7.

Family Planning Programs

Mobile Clinic Reaches 6,000 Oklahoma Poor, No. 2, p. 10.

Program Success Built on Community Support, No. 3, p. 15.

Four Programs Singled Out for Excellence in Medical Care, Training, Education, Outreach, No. 5, p. 3.

Teen Family Planning Clinics Meet Urgent Personal, Social Needs, No. 3, p. 7.

Services by Yacht, No. 5, p. 7.

Fertility

All Groups Reduce Unwanted Births, No. 6, p. 9.

Human Fertility and Infertility Explored by Nation's Reproductive Scientists, No. 5, p. 9.

Genetic Counseling

A Practical Family Planning Service?, No. 1, p. 4.

Government Programming and Funding

DHEW Five-Year Plan: Serve 6.6 Million, Spur Research for New Contraceptives by 1975, No. 2, p. 1.

Population Commission: Welcome and Plan for Stabilization Now, No. 4, p. 3.

Health

Do Blacks Have Less Access to Private MD?, No. 2, p. 9.

Do Unwanted Babies Fail to Thrive?, No. 3, p. 7.

Family Planning Can Cut Infant Mortality, No. 2, p. 7.

Family Planning: No Better Preventive Health Measure, No. 6, p. 8.

Health, Social Impact of Legalized Abortion, No. 4, p. 13.

WHO Reports on Health Aspects of Family Planning, No. 3, p. 13.

Illegitimacy

Myths about Welfare Births Are Refuted, No. 4, p. 3.

Infant Health

Children Affected by Mothers' Adolescence, No. 5, p. 16.

Do Unwanted Babies Fail to Thrive?, No. 3, p. 7.

Family Planning Can Cut Infant Mortality, No. 2, p. 7.

Infertility

Human Fertility and Infertility Explored by Nation's Reproductive Scientists, No. 5, p. 9.

Hormone Injections May Make Male Temporarily Infertile, No. 4, p. 7.

Injectables

Hormone Injections May Make Male Temporarily Infertile, No. 4, p. 7.

Injectables Prove Acceptable, Effective, No. 4, p. 9.

Intrauterine Devices

2nd Generation IUDs Prove Most Effective, No. 4, p. 8.

Second Generation IUDs Suitable for Nulliparae, No. 3, p. 9.

Pill and IUD Young Couples' First Choice, No. 6, p. 10.

Knowledge, Attitudes, Practice

Choice of Sex Might Mean Fewer Children, No. 6, p. 13.

Couples Best Off Who Best Plan Number and Spacing of Children, No. 3, p. 3.

Decline Due to Better Method Use, No. 6, p. 9.

Low-Income Women Seek Best in Contraception, No. 2, p. 8.

MDs Assume Poor Can't Remember to Take Pill, No. 1, p. 3.
